pharmaceutical company focused on the discovery, development and commercialization of first-in-class therapies for the treatment of patients with open-angle glaucoma, retinal diseases and other diseases of the eye. Official ESCRS | European Society of Cataract & Refractive ... - The vertical red lines in Figure 1A and 1B indicate one SD to either side of the mean. From this, we can see that the population in Figure 1A has a SD of 20, whereas the population in Figure 1B has a SD of 50. A useful rule of thumb is that roughly 67% of the values within a normally distributed population will reside within one SD to either side of the mean. A biologist's guide to statistical thinking and analysis -
